

## RSS HISTORY & MILESTONES

2013

RSS opened office in Jeddah, Saudi Arabia.

2012

RSS provided Power solutions to the Oil & Gas industry and completed 105MW power plant in Tanzania

2011

RSS selected as Top 15 Best Rental Equipment Company in Middle East

2010

RSS launched Mobile Water Desalination solutions and Service Division; opened an office in Cyprus

2009

RSS offered Power Generation solutions; opened offices in Oman and Abu Dhabi, UAE

2008

RSS introduced Temporary District Cooling solutions; opened offices in Bahrain and Al Khobar, Saudi Arabia

2007

RSS founded in Dubai, UAE offering Cooling Solutions

## VISION

To be the leading global provider of temporary power, cooling and water solutions.

## MISSION

To provide excellence in products, services and business processes guided by our stringent corporate governance policies.

## VALUES

Our People – Share our passion for excellence and are our foremost differentiator.

Our Commitment to our Customers

Our Service First philosophy - Delivery of projects on schedule, within budget and without risk to people, environment or assets.

# SERVICE FIRST

**Service First is our philosophy,  
our culture and the way we do business.**

By putting ourselves in the customers shoes in everything we do, we deliver unrivalled service to all customers in all situations.

## WHAT WE DO

RSS is a global provider of temporary power, cooling and water solutions, offering reliable equipment and total engineered solutions.

### POWER

RSS offers a wide range of multi-fuel generators and power accessories.

### COOLING

RSS offers various temperature control, district cooling and temporary cooling packages.

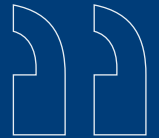

### WATER

RSS offers mobile water solutions including reverse osmosis desalination & sewage treatment plants.

### SERVICE

RSS provides annual maintenance and service contracts to all types of power generation and HVAC equipment.

‘Our unique differentiator is our ability to provide a total utility package including power, cooling and water equipment with a first class service support function’.

Milan Balac, CEO

## POWER SOLUTIONS

**RSS offers the most reliable and fuel efficient multi-fuel power generation equipment.**

RSS offers a wide range of acoustically containerized multi-fuel generators and power accessories anywhere in the world. All installations include a dedicated service team to plan, organize and manage the entire process of supplying temporary power generation and distribution.

### Power Product Offering:

- Containerised Multi-fuel Generators: 30kVA –1250kVA
- Multi-Megawatt Synchronized Power Plants
- Rig Safe Generators
- Power & Electrical Distribution
- Load Banks
- Multi-tap Transformers
- Double Bunded Fuel Tanks up to 5000 gallon
- Switch gear, Distribution & Protection

### Powering Cities across the World

### 80MW IPP, Oman

### Applications:

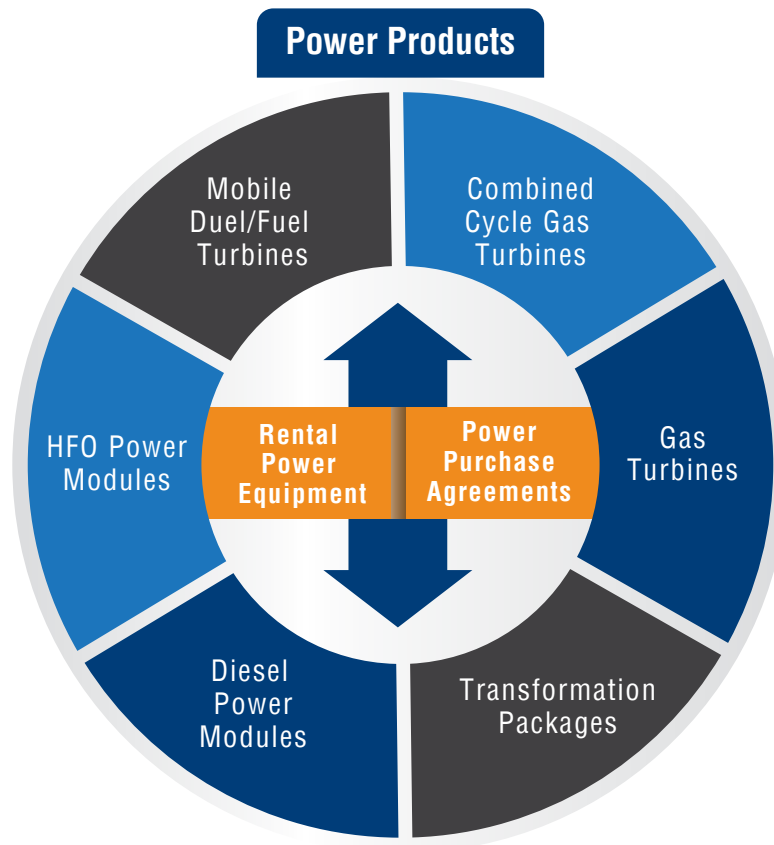

- Turnkey Power Generation Solutions
- Solutions provided to all locations, no matter how remote, harsh or hazardous
- Utilities, Government, Mining, Military, Oil & Gas, Construction, to name a few
- Emergency Cover - providing back-up power to communities in the event of natural disasters

## INDEPENDENT POWER PROJECTS (IPPs)

RSS builds, operates and maintains efficient and environmentally responsible multi-fuel power plants to a wide range of end users.

### Applications

- Grid Support
- Top Up to Installed Packages
- Process Power
- Camp Power
- Emergency Power
- Bridging Power
- Zoned Equipment
- Disaster Recovery

## COOLING SOLUTIONS

**RSS is the global leader in providing temperature control and temporary district cooling solutions.**

RSS offers various temperature control equipment, temporary district cooling solutions and rental cooling packages.

### Temperature Control Product Offering

- Air Cooled Chiller units: 140TR – 300TR
- Energy Transfer Stations
- Air Handling Units: 100TR – 200TR
- Air Conditioners
- Heat Exchangers
- Cooling Towers
- VFD pumps
- Flow Control & Metering

### Utility Cooling Solution UAE

### Cooling for Construction Industry

### Temperature Control Applications:

- Construction & Contracting
- Emergency Requirements
- Events & Hospitality
- Government Projects
- Military
- Oil & Gas Refineries
- Utilities

## RENTAL WATER SOLUTIONS

**RSS offer a range of rental water solutions including reverse osmosis desalination and sewage treatment plants.**

Our mobile equipment is uniquely designed to fit into 20ft or 40ft containers and integrated in various combinations to give the desired desalinated capacity. All units are designed for swift installation and fast response time to customer requirements.

### Rental Water Desalination Solutions:

- Reverse Osmosis Desalination
- Sewage Treatment Plants
- Integration of multiple containers for larger capacity requirements
- Customized plants for smaller capacity requirements

### Reverse Osmosis Desalination System

### Reverse Osmosis Desalination Plant

### Water Desalination Applications:

- Plants for the treatment of water from many sources – sea water, estuaries, rivers, lakes, bore-wells, beach-wells, industrial effluent and other water sources
- 24 hour on-site support

## SERVICE SOLUTIONS

**RSS is a technical service provider for power generation and HVAC equipment.**

### RSS offer the following technical service solutions:

- Preventive Maintenance
- Planned Maintenance
- Call-out Service to all breakdowns
- Generator Testing – Load Banks
- Chiller Testing & Commissioning

### Generator + HVAC Service

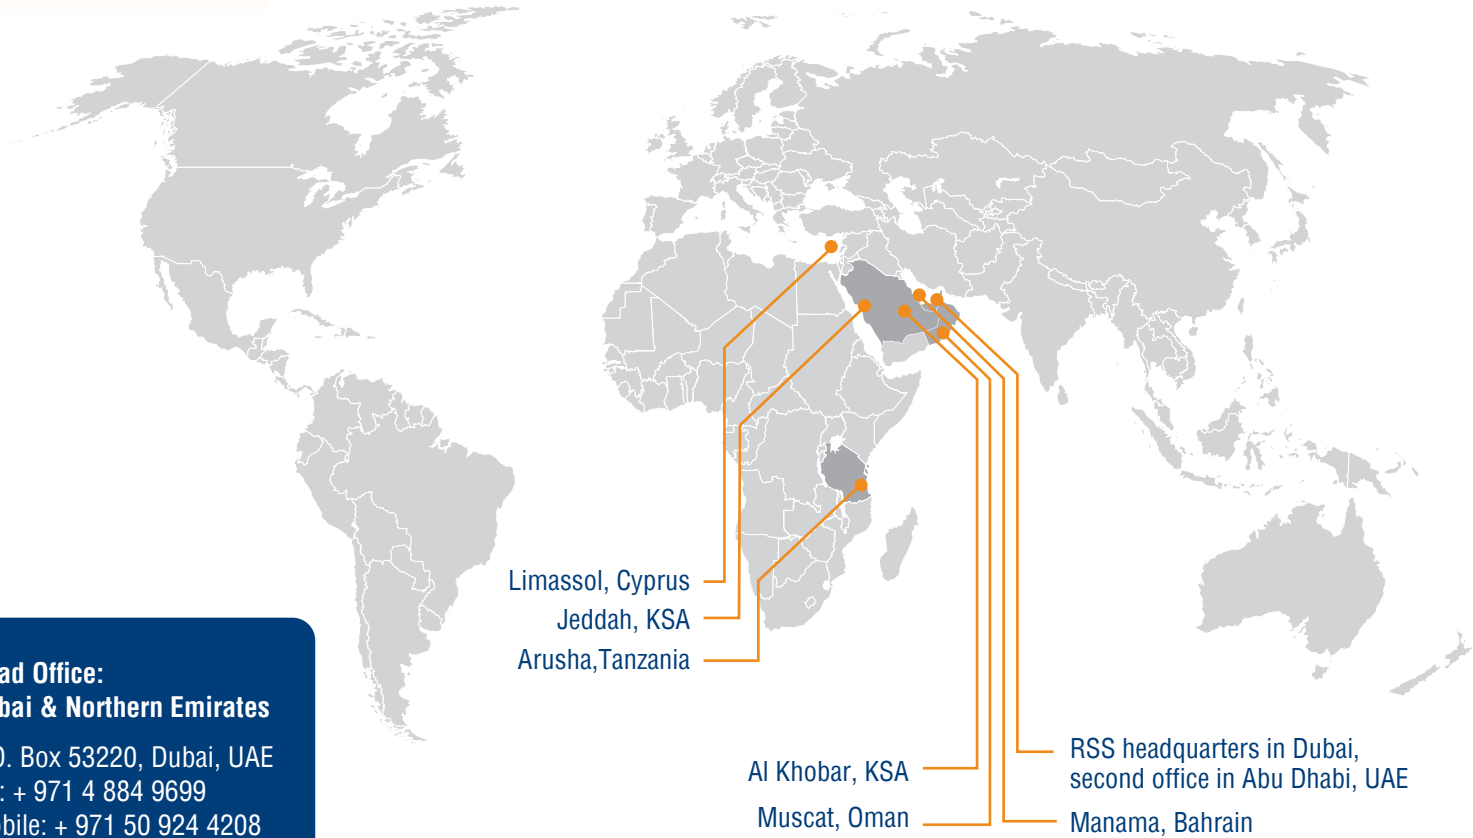

### Service First Philosophy

### Factory Rebuild Facility:

- Generators
- Chillers
- Pumps
- Distribution Boards
- Air Handling Units
